Introduction

Welcome to ADDNUM Academy, an independent private school situated in Birch Acres, Kempton Park. I am excited that you have enrolled your child with us. I trust that you are equally excited to be part of this exciting family.

Below is the brief background:

Ms. Eugenia Mokone is a mother -Entrepreneur - Mentor - Coach - Business Advisor - Educator -Runner - Top 5 Finalist of the 2019 FNB Business Innovation Awards! One of EUGENIA's values is Excellence, and she excels in everything she does. Eugenia is driven by an insatiable passion and desire to make a difference by building stronger communities through education & development. As the founder and director of ADDNUM Academy, Eugenia has vowed and started helping other women to open their own schools in the different provinces of South Africa. She is also the founder of Beyond ME: A platform where aspiring entrepreneurs & academics collaborate with other experts to help them grow their businesses and improve their professional lives.

As a Purpose-driven woman, Eugenia is always looking for opportunities to leave legacy and stretch herself out of her comfort zone.

EDUCATION & EXPERIENCE:

- Master's Degree in Economics & Montessori method of teaching.
- She has been involved with numerous Institution as both the lecturer, Director & Executive and Committee Member.
- Trained more than 500 young entrepreneurs who went and open successful businesses or secure employment.
- She also heads the 10,000 Women in entrepreneurship and Leadership program that was launched by the Goldman Sachs Foundation based in New York.
- Eugenia has demonstrated experience in executing a robust business strategies from conception to implementation. She has mastered the art of blending culture and strong business relations to fuel excellency (she calls it "colourful excellency")

Welcome to Addnum Academy

Dear Parents and Guardians, Warm greetings to you all! On behalf of the entire faculty and staff, I am delighted to welcome you and your children to Addnum Academy.

As the Principal, it is my pleasure to welcome and introduce your family to our thriving , vibrant learning community and express my excitement about having your family join us. At Addnum Academy, we strive to create an engaging, inclusive, and safe environment that fosters academic excellence and personal growth. Our dedicated team of Guiders is committed to nurturing the unique talents and abilities of every student, while equipping them with the skills necessary to thrive in an ever-changing world. Here at Addnum Academy, we believe that a strong partnership between the school, parents, and guardians is vital for the success of our students. Your active involvement in your child's education will surely have a big impact on how they develop as a whole.

Once again, I extend a warm welcome to you and your family to our school community. We are excited to embark on this educational journey together, partnering to provide your child with the best possible educational experience. I look forward to meeting you personally at our upcoming orientation session. It will be a great opportunity for us to introduce ourselves, share important details, and address any questions you may have. Thank you for entrusting us with the education and well-being of your child. Together, let's make this academic year remarkable and filled with memorable learning experiences.

Best regards,
Addnum Academy Principal
Mr P.S.Khoza

Addnum Compass -About Us

Addnum Academy is an independent private school that specializes in personal development and academic excellence from Grade RRR- 7. It is situated in Birch Acres, a secured area eight kilometres from O.R. Tambo International Airport. The school is managed by a very capable team that consists of committed educators, support staff, mentors & Board of Advisors elected by parents.

As a comprehensive and diverse school, our purpose is to deliver education that inspires, engage and develop an African child to become a global citizen. To achieve our purpose, we have created a pleasant, respectful and supportive learning environment that encourages learners to ignite their senses of curiosity and provide opportunities that would help them thrive in everything they endeavour.

What makes a successful learner? is their ability to innovate, communicate, solve problems, think critically, collaborate, co-operate, take risks, work independently and adapt. Our academic excellence is influenced by the school values and practices that serves as foundation to everything we do. Above all, we constantly research and review strategies and tools around the world to improve our curriculum. We also create a platform where parents and communities share their input.

Our Philosophy and Purpose

As an educational institution that inspires an African child to become a global citizen, the philosophy of ubuntu – the “I am because you are” that is at the central heart of an African way of life influence our way as Africans. In a world that is evolving & becoming competitive by the moment, It is imperative that learners not only learn skills that will enable them to perform or secure future jobs, They should also understand their cultural heritage and values to navigate their way to the world stage with pride & honour.

Addnum strives to embrace those valuable qualities that promote peace, cooperation, respect, compassionate & caring for one another among people from all walks of life, irrespective of race, colour, religion, background and place of origin. We continuously encourage learners to believe in themselves and work hard to achieve all their personal goals in life. Our inspiration derives from the slogan: **I CAN, I WILL & I MUST.**

In alignment with our values, we follow a robust educational model, which we call “school for life,” The model shifts the goal of schooling away from the achievement of standardized learning outcomes towards making a positive impact on the economic and social well-being of students and their communities. Our type of education which are routinely cut from traditional school budget are the crux of Addnum Education.

Our Practical life skills components focus on skills and attitudes such as confidence, responsible, co-operation, risk taking, adaptability and resilience are infused into our personal development program. Other qualities such as critical thinking, problem solving, communication, collaboration & innovation are the skills that gives Addnum a competitive edge in the academic sphere.

Through this unique combination of relevant content, learners will develop a body of knowledge, skills, and attitudes that will enable them to succeed and thrive in any life situation. It is the goal of Addnum to inspire an African child to dream big & create the future they aspire to become in the long run.

OUR PURPOSE

To inspire an African child to reach excellence and become a global citizen.

Our Philosophy and Purpose

Our Values

- **Care:** Remains central to all we do at Addnum
- **Trust:** Doing the right thing in all situations, even when no one else is looking.
- **Excellence:** is at the forefront of our values. Students are inspired to work hard and keep trying when they are faced with challenges.
- **Respect:** Respect of the dignity of fellow human beings, irrespective of their colour, race, nationality & religion.
- **Innovation:** To continuously discovers and develop new ways of teaching & learning
- **Growth:** We are committed to constantly improving ourselves as a school. We regularly evaluate our practices, policies, and curriculum to ensure they meet the evolving needs of our students and provide the best possible educational experience

What do we stand for

What do we stand for ?

- Academic excellence is a top priority.
- Social wellbeing and respect
 - Confidence & talent discovery
- Skills and knowledge needed for a VUCA world.
- Continuous learning
- Curriculum that challenges and inspires
- Innovative teaching methods: Learning is engaging and relevant.
- Opportunities for personal growth
- Exploration of the learners' passions, leadership skills, strengths, etc
- **Outcome**: Well-rounded individuals who possess a balance of academic, social, and emotional skills.

21st Century Education Addnum Offers

Curriculum Goals

Throughout the year, students will engage in hands-on activities, experiments, and projects to foster critical thinking, problem-solving skills, and creativity. The curriculum goals include:

1. Developing a strong foundation in STEM subjects.
2. Enhancing problem-solving abilities and logical reasoning.
3. Encouraging innovation and creativity through hands-on projects.
4. Building teamwork and collaboration skills.
5. Promoting inquiry-based learning to ensure a deeper understanding of concepts.
6. Develop strong literacy and numeracy skills.
7. Foster critical thinking and problem-solving abilities.
8. Encourage creativity, self-expression, and cultural awareness.
9. Promote physical fitness and a healthy lifestyle.
10. Build digital literacy and technological competency.

OUR CURRICULUM

21st Century Education Addnum Offers

ADDNUM adheres to CAPS approved by UMALUSI in order to maintain the right to continue providing education as an independent School. However, we have incorporated STEM (Science, Technology, Engineering, and Mathematics) subjects, Personal development and Montessori methodology to spark creativity in the classroom and bridge learning with real life experiences. Our learners are exposed to coding, robotics, and other technological tools to foster innovation and problem-solving abilities.

- The curriculum aims to provide students with a well-rounded education that promotes their personal development alongside academic growth. The key subjects encompass various STEM fields, ensuring a comprehensive understanding of scientific concepts, technological advancements, engineering principles, and mathematical applications.
- STEM methodology for key subjects: we use project based learning to introduce and help learners understand the key concepts of scientific knowledge. We use interactive experiment and engaging virtual.
- Personal development: help us assess their skills and qualities. We then design a plan and set goals in order to realize and maximize their potential;
- Technology club: we have established a technology club in partnership with resolute. We aim to make learning fun, exciting and interactive through intuitive concepts in coding, engineering and data sciences provided in a wide variety of courses that cater to a large range of skills.
- We are also reliant on a diverse team of highly skilled and certified teachers from different sectors with years of experience in their respective fields to deliver our entrepreneurship and health program.

21st Century Education Addnum Offers (Continue)

In addition, we offer programs that cater to students' unique interests and abilities. These programs provide opportunities for advanced learning, enrichment, or additional support, ensuring that every student is challenged and supported at their appropriate level.

Evaluation and Grading:

- To measure students' progress and understanding, we employ a variety of evaluation methods. These include class participation, quizzes, tests, projects, presentations, and assignments. The grading system is designed to provide a comprehensive assessment of students' knowledge and skills.

Report Cards and Progress Reports:

- We believe in maintaining regular communication with parents regarding their child's academic performance and overall development. Report cards will be sent home at the end of each term, providing a comprehensive summary of the student's progress and grades. Progress reports may be sent home at midpoint intervals during the semester to inform parents about their child's performance.

Homework Expectations:

- We believe that homework plays an important role in reinforcing concepts learned in class and developing independent study skills. The amount of homework assigned will vary depending on grade level and the complexity of the topics covered. As a general guideline, students can expect a reasonable amount of homework each week to ensure optimal learning and practice.

Calendar of Upcoming Events:

- We understand the importance of involving parents in their child's educational journey and fostering a sense of community within the school. To keep parents informed, we provide a comprehensive calendar of upcoming events, including class field trips, parent-teacher conferences, and other school activities. This calendar will be shared with parents at the beginning of the school year and will be updated regularly to reflect any changes or additions.
- For specific details regarding event dates and other details, we recommend referring to the school's official communication channels, such as newsletters, website, or direct communication from your child's teacher.

School Fact Sheet

Early Childhood Development Centre GR RRR- RR

Quick Facts:

Language: English Ages: From 3years to 5 years

Class size: Controlled class sizes

School times: Half day: 07:00 – 13:30

Full day: 07:00 – 17:00

Early drop-off/waiting class: 06:30

PROGRAMMES

Montessori methods

The daily programme includes:

Morning ring

Theme exploration

Free play

Creative art activities

Montessori activities

Movement development

Story and language time

Perceptual and sensory play

Performing arts

Soccer and Netball sports are part of Addnum's curriculum .

Extra mural activities offered by private coaches held at Addnum includes: Cooking , swimming and ballet.

School Fact Sheet

Foundation Phase (Grade R to Grade 3)

Quick Facts :

Language: English

Foundation phase: Grade R to Grade 3

Class size: Maximum 20 learners per class

School times:

All grades to arrive by 07:15

Grade R- 2: 07:30 – 13:30

Grades 3: (Mon-Thurs) 07:30 – 14:00

(Fridays) 13:30

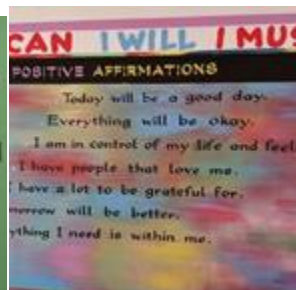

Aftercare: 13:30 – 17:00

Grade R

The integrated play-based curriculum with specialized educational programs that we emphasize in Grade R is as follows:

- The phonological awareness curriculum, which involves interactive activities and is specifically taught in small groups.
- The Number Sense program, which uses a learner-centred methodology and emphasizes problem-solving the beginning
- Lego-based robotics introduction.

The world of concrete and the world of symbols and numbers in Grade 1 are connected by the Grade R curriculum.

School Fact Sheet

Foundation Phase (Grade R to Grade 3)

Grade 1 to Grade 3

The emphasis in these grades is on perceptual development, exposure to pertinent material, skills, and knowledge needed for further education. We provide a lively, welcoming environment where students enjoy going to class and develop a passion for studying that will last throughout their academic careers. We place greater focus on individual performance than on competition because we recognize that every learner has the opportunity to develop to their full potential. In order to prepare learners for the task of being personally accountable for their actions in the intermediate phase, we provide opportunities for personal growth in independence and responsibility.

SUBJECTS:

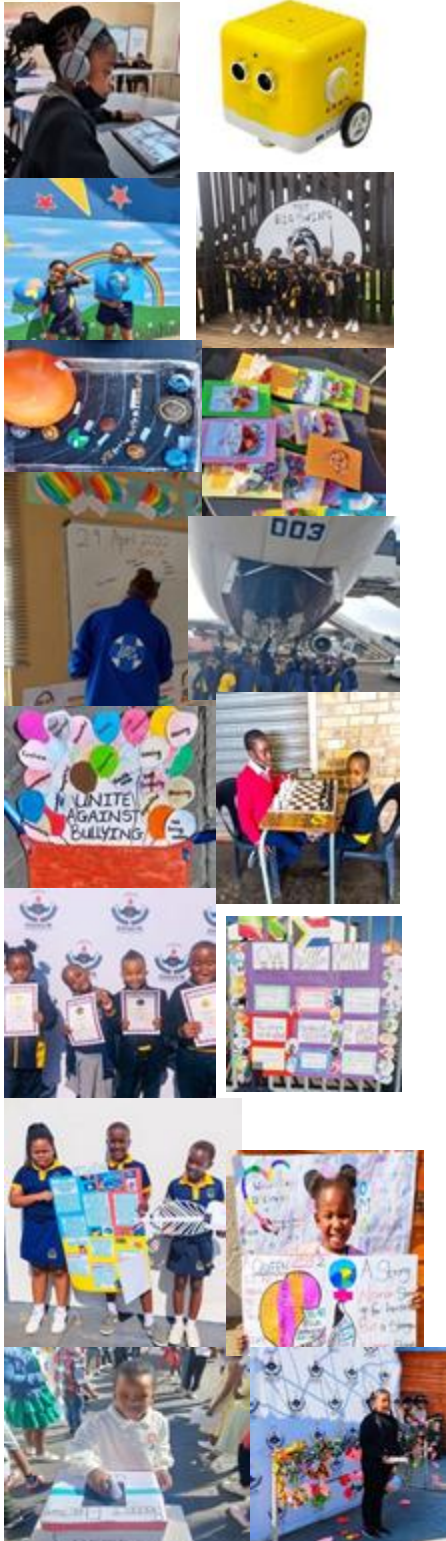

The two main learning areas are:

Language – English Home Language, Afrikaans First Additional Language (Grade 1 to Grade 3).

Mathematics: Mathematical problem-solving as the cornerstone of a learner-centred approach:

Application of mathematical information with confidence and comprehension is facilitated by sense-making and problem-solving activities, meaningful mathematical knowledge, efficient use of a range of methodologies, and project-based learning.

Basic knowledge, social and emotional well-being, and physical education are all life skills.

School Fact Sheet

Intermediate & Senior Phase (Grade 4 to Grade 7)

Quick Facts :

Language: English

Intermediate & Senior Phase-: Grade 4 to Grade 7

Class size: Maximum 20 learners per class

School times:

All grades to arrive by 07:15

Grades 4 to 7: (Mon-Thurs) 07:30 – 14:30

(Fridays) 14:00

Aftercare: 14:30 – 17:00

Grade 4 to Grade 7

The emphasis is still on laying the groundwork in the intermediate phase, but learners are guided toward more abstract reasoning and independent work.

Application of knowledge and ideas is another area of emphasis in this stage. The goal of this phase is to get students ready for high school senior phase. We encourage kids to make their own decisions within clearly defined parameters in order to foster creativity and critical thinking.

School Fact Sheet

Intermediate & Senior Phase (Grade 4 to Grade 7)

Subjects : Grade 4 to 6

English Home Language, Afrikaans First Additional, Language, Mathematics, Robotics & Coding ,Natural Science & Technology , Social Sciences, Life Skills (Physical Education), Art, Personal and Social Well-being.

Subjects : Grade 7

We offer 9 official subjects as per the Department of Education in Grade 7 with the inclusion of Coding and Robotics as Addnum's (STEM) there will be 10.

- **Home Language** - English, First Additional Language - Afrikaans
- **Mathematics:** Basic arithmetic, problem-solving, and logical reasoning.
- **Natural Science:** Introduction to scientific concepts and experiments.
- **Technology:** Learners will be educated on the processes and knowledge to change and shape the physical world by making use of materials and tools to create technological products that meet human needs.
- **Social Sciences:** Exploring history, geography, and cultures.
- **Creative Art:** Creativity, visual arts, and music appreciation.
- **Life Orientation:** is central to the holistic development of learners. It addresses skills, knowledge and values for the personal, social, intellectual, emotional and physical growth of learners, and is concerned with the way in which these facets are interrelated.
- **Economic Management Science:** is a practical subject that equips learners with entrepreneurial skills, financial knowledge and real-life skills for personal development and the development of the community.
- **Coding and Robotics:** The world is moving forward, and now more than ever we need to give future generations every opportunity to leverage the power of modern technology and thrive in the digital age. They'll learn essential skills like: Critical Thinking, Creative Thinking, Complex Problem-solving and Coordination With Peer.

School Fact Sheet

CULTURAL ACTIVITIES

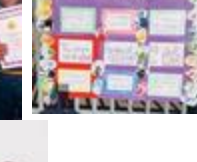

Addnum's Programs

- Language enrichment
- Computer programs
- Robotics
- Supervised homework classes for learners and private activities.

- Lethabo Festival
- Educational outings
- Public speaking

Extra-curricular

- Swimming
- Cooking / culinary classes
- Art
- Drama
- Soccer
- Netball
- Piano

STATIONERY AND BOOK LISTS

Please arrange for all the learners to have their stationery on the 1st day of school. All exercise books must be covered and labelled on the top right-hand corner of the book. Please use plastic/dc fix to finish the books off.

Please note that this stationery is for the first semester (January – June). Any stationery for 2nd semester (July to Nov) shall be determined by what is left in term 1. A list will be given end of June.

- All workbooks must be and covered in plastic.
- All stationery items are kept at school and issued as required
- Please keep an extra set of retractable, coloured pencils crayons, a pencil and pencil bag for your child to use at aftercare/home.
- If your child attends an aftercare facility, please ensure that the aftercare bag that is brought to school is small
- Please mark all items clearly (permanent marker) with your child's full name - All stationery must be at school EVERYDAY.
- Owing to unforeseen staff/syllabus changes, this stationery list may be amended!

InterSen Phase

Important Update: Embracing Digital Learning

As we strive to prepare our learners for the 21st century, we are excited to announce the introduction of eBooks for our InterSen phase starting next year. This initiative aims to foster global citizenship and equip our learners with essential digital skills.

Rollout Plan:

1. 2025: eBooks implementation
2. 2026: Online portal launch, transitioning to fully digital learning

Key Benefits:

- Enhanced accessibility and convenience
- Reduced textbook costs
- Increased engagement and interactivity

Key Considerations: The eBooks can be purchased via the link:
<https://shop.mml.co.za/primary>

- Upon purchasing eBooks, they will be pre-loaded onto learners' devices, ensuring seamless access without requiring WIFI or internet connectivity at home or school.
- To ensure responsible usage, device management will be closely monitored and regulated within our classrooms and school premises.

By embracing this digital transition, we empower our learners to thrive in today's technology-driven landscape.

Thank you for your ongoing support and partnership in our learners' educational journey.

Learner Code of Conduct

A. Disciplinary measures

Addnum Academy has adopted an open-door policy by which parents are welcome to communicate with the principal, management team and members of staff. The following guidelines are in place to ensure that communication is done in an orderly manner without disruptions to any part of the school day.

B. Parents

Should parents experience any problems with respect to a learner's emotional intelligence, academic progress, curriculum or how a teacher handles a child, the following steps must be followed:

1. Please ensure that you have verified the information received.
2. Encourage your child wherever possible to try and solve the problem out by speaking to the guider. (From Gr RRR onwards).
3. Write a letter to the teacher to make him/her aware of the problem.
4. Make a reasonable appointment with the teacher involved so that there is ample time to discuss the case.
5. Follow-up on the case if you are not fully satisfied. You can request that the school Head of department (HOD) investigate the case or ask that they be present with the follow-up meeting.
6. Submit the problem in writing and make an appointment with the secretary to see either the school Coordinator or the Principal. The teacher involved must also be present.
7. If necessary, the problem can be handed over to the Principal.
8. The Principal can refer the case to the Board of Advisors or involve an external stakeholder.

A friendly request is that you first discuss the case with the relevant teacher before addressing the principal.

C. The following is not allowed:

1. To quick talk to a staff member before school. (Our Guiders are expected to be in class before the learners get to school to administer the morning sessions)
2. To approach the teacher at his/her classroom during class times without reporting to the admin officer.
3. To directly go and stand in front of a classroom either before or after school to be able to speak to a teacher or meet with your child once the class has been dismissed. (Kindly meet your child by the gate or sidewalk).
4. To discuss the problem with the school secretary, other teachers, neighbours, family or friends instead of following the correct procedures.
5. To engage with any teacher be it at church or at the shop to ask them how your child is progressing

D. School

Academic problems:

Should the guider be concerned about the child's progress, the parent/guardian must be notified immediately.

1. Parents/guardians must be contacted either telephonically or in writing.
2. Formal appointments must be made in advance to enable enough time to discuss all aspects of the problem.
3. Guiders must have proof ready with regards to the problem, as well as, having the learner's assessment results available.
4. A follow-up appointment can be arranged whereby the HOD or School Coordinator can be requested to be present.
5. An appointment must be arranged whereby the parents, teacher, senior management member or principal be present.
